

## Ordering a Pizza, By Chris Speck

Level: Elementary  
 Target Vocab: Numbers and money, Food in Kebab shops/ and Pizzerias  
 Function: Requests, Can I have.....?, I'd like.....  
 Time: 40 Mins  
 Materials: White board/ Fake telephone (or your hand, little finger on your mouth, thumb on your ear.)

### Part 1.

- Write the name of a Kebab shop/ Pizza takeaway on the board, use one of your students' names, 'Alberto's Pizza' or 'Mohammed's Kebabs'.
- Ask the students to suggest food that might be on the menu, write them on the board (Use local currency as everyone understands this)
- You should end up with a whole Menu on the board. Try not to put too much food on the board; the aim of the lesson is not so much the names of edibles, but the art of requests. See below.

## Mo's Pizza

<u>Pizzas</u>	12 inch	14inch	<u>Kebabs</u>	
Margarita	£3.40	£5.20	Large Doner	£5.00
Cheese and			Medium Doner	£3.50
Mushroom	£3.70	£5.60	Small Doner	£2.50
Pepperoni	£4.00	£6.00		
<u>Drinks</u>				
Coke	£0.70	Hot Dog	£2.50	
Lemonade	£0.70	Chips	£0.90	

- Teach the students the two main structures: 'I'd like a/ some. Can I have a/ some'. Give them ten virtual pounds (or whatever money you are using) and ask them to spend it.

### Part 2.

- Give out the first sheet and read it all together. Have a few students roleplay it with you. Then they roleplay in pairs to practise. Given a structure students feel much more secure.
- Give out the second sheet and with their virtual ten pounds they can buy what they want and fill in the gaps. Go round and check students have filled it in correctly. Pick on a few students to practise with in front of the class, and then have them practise in pairs.

### Notes.

Most of the information is dependent on students, so it's better to use it with a noisy class.

If you're new to your teaching placement or country, this is a good way to get a feel for decent prices.

Chris Speck

# Ordering a Pizza

You	Pizza Shop
Hello, I'd like to order a pizza please.	Yes is it for delivery?
Okay.	What's your address?
24 Main Street, Old Road.	What's your telephone number?
